POSTCARDS FROM CIVITAVECCHIA 2019: THEME

The chosen theme for the 4th edition of Postcards from Civitavecchia is “A city in motion”.

“The first idea of movement and dance came to me surely from the rythm of waves”. (Isadora Duncan)

Movement is life, journey, ongoing experience, fall and rise, a wave crashing against the rocks and then laying down to the shore, the rythm of a dance, the speed of a race, the flight of a seagull.

Movement is an integrating part of a city, heaving with people in a frenetic jam in the morning, the daily routine and the night solemn gait.

Representing movement, in any of their forms, is one of the great challenges a photographer, beginner or professional. That is why we want to challenge you to picture Civitavecchia symbolically catching a gesture, an act or a characteristic movement that can represent their uniqueness.
